

Salutes Naturepedic in fighting the good fight for all of us

Barry Cik is a credentialed authority on the harms of toxic chemicals and has testified before Congress calling for tougher, safer legislation to protect consumers, including children, from harmful chemicals. He, together with Naturepedic, cares deeply about a cleaner, safer world, and we salute Naturepedic and Barry for their leadership.

A handwritten signature in dark ink, appearing to read "Gabe Canales", written over a horizontal line.

Gabe Canales, President
