

Protecting Human Health + the Ecosystem

STATEMENT OF CERTIFICATION

– August 10, 2023 –

The MADE SAFE® seal means that a product is literally made with safe ingredients not known or suspected to harm human health, animals or ecosystems. It's the only nontoxic certification to apply to products we use every day. For the first time, shoppers can find things that are safe to use on their body, with their families and in their homes.

Our certification process is rigorous, scientific and unique. Certified products have been thoroughly examined by researchers, scientists and/or discipline-specific experts to ensure they're made without known behavioral toxins, carcinogens, developmental toxins, endocrine disruptors, flame retardants, heavy metals, neurotoxins, high risk pesticides, reproductive toxins, toxic solvents, or harmful VOCs. MADE SAFE then goes above and beyond: Ingredients are further examined for bioaccumulation (builds up in our bodies), persistence (builds up in the environment), general ecosystem harm, as well as for aquatic and animal toxicity. This 360-degree assessment makes MADE SAFE the leading standard in the country.

What MADE SAFE does is revolutionary. In short, it means shoppers can finally trust that products are made without toxic chemicals known to harm our health.

have been **MADE SAFE® (Made With Safe Ingredients) Certified.**

THIS STATEMENT IS VALID THROUGH FEBRUARY 2024.

MADE SAFE is a rigorous scientific certification that uses a hazard-based approach to ingredients. Named products do not contain ingredients known to be harmful to humans or ecosystems as per our Screening Process.
